Main objectives

This workshop is aimed to:

- a) provide updated information on the cases of algal and jelly fish blooming reported in the Mediterranean and Black Sea;
- b) review the different mitigating management measures/approaches taken in relation to algal and jelly fish bloomings;
- c) review the effects of algal and jelly fish blooming on fisheries;
- d) review methodologies and data collection programmes developed in relation to bloomings;
- e) develop a scientific framework in support of management instruments towards eliminating and/or mitigating the bloomings;
- f) review the human health-related problems caused or associated with the bloomings.

Languages

English, French, Spanish and Arabic may be used for preparation of workshop papers or for data submission. However, no interpretation services will be available. It is expected that English will be the main language for discussions.
