

Supplementary material on the methodology Part IX

Questionnaires for the collection of information on the methodologies currently used for European eel monitoring in partner countries

Table 1. Questionnaire for the collection of information on the methodologies currently used for glass eel monitoring in partner countries

GFCM Eel Programme 2020 - Methods used

Country:

Institute:

Remark: It is possible to have various methods for one life stage

	Method	Habitat type	Description
Sampling			
Life stage identification			
Age reading			

Table 2. Questionnaire for the collection of information on the methodologies currently used for yellow eel monitoring in partner countries

GFCM Eel Programme 2020 - Methods used

Country:

Institute:

Remark: It is possible to have various methods for one life stage

	Method	Habitat type	Description
Sampling			
Life stage identification			
Age reading			

Table 3. Questionnaire for the collection of information on the methodologies currently used for silver eel monitoring in partner countries

GFCM Eel Programme 2020 - Methods used

Country:

Institute:

Remark: It is possible to have various methods for one life stage

	Method	Habitat type	Description
Sampling			
Life stage identification			
Age reading
