European eel quality classes based on the highly pathogenic EVEX and AngHV-1 viruses by partner country site

Table 1. Highly pathogenic EVEX and AngHV-1 virus quality class by partner country site

Country	Site	Habitat type	EVEX prevalence	Ang HV-1 prevalence	Score	Status
France	Salses-Leucate	Lagoon	17.00		4	Strongly infected
	Bages-Sigean	Lagoon	0.00		1	Not infected
	Canet	Lagoon	0.00		1	Not infected
	Berre	River	0.00		1	Not infected
Italy	Fogliano	Lagoon	5.00	25.00	4	Strongly infected
	Capolace	Lagoon	9.50	43.00	4	Strongly infected
Spain	Palomares	Estuary		16.70	4	Strongly infected
	Guadalhorce	Estuary		62.50	4	Strongly infected
	Guadalfeo	Estuary		0.00	1	Not infected
	L'Albufera de Valencia	Lagoon		53.00	4	Strongly infected
