

Supplementary material on the methodology Part V

Questionnaire for the collection of additional information on European eel fishery methods (technical features) in partner countries

Please insert the technical characteristics of each fishing gear (longlines, fences, fyke nets, fixed barriers) used in your country

Country	Site name	Habitat type	Gear code	Eel stage targeted	Gear dimension*	Number of units**	Number of licences

Notes:

* For longlines, insert hook dimensions; for fences and fyke nets, insert diameter of hoops and minimum mesh size of codend (mesh opening); for fixed barriers, insert dimension of the room (last part of the gear where fish are caught), mesh size (mesh opening for diamond/mesh bars for other shape) and mesh geometry (square, triangular, rectangular or diamond).

** For longlines, insert total number per licence; for fences and fyke nets, insert number of codends (pockets) per licence; for fixed barriers, insert number of rooms per licence
