DIGITS FOR THE CODIFICATION OF THE RECTANGLES IN THE STATISTICAL GRID

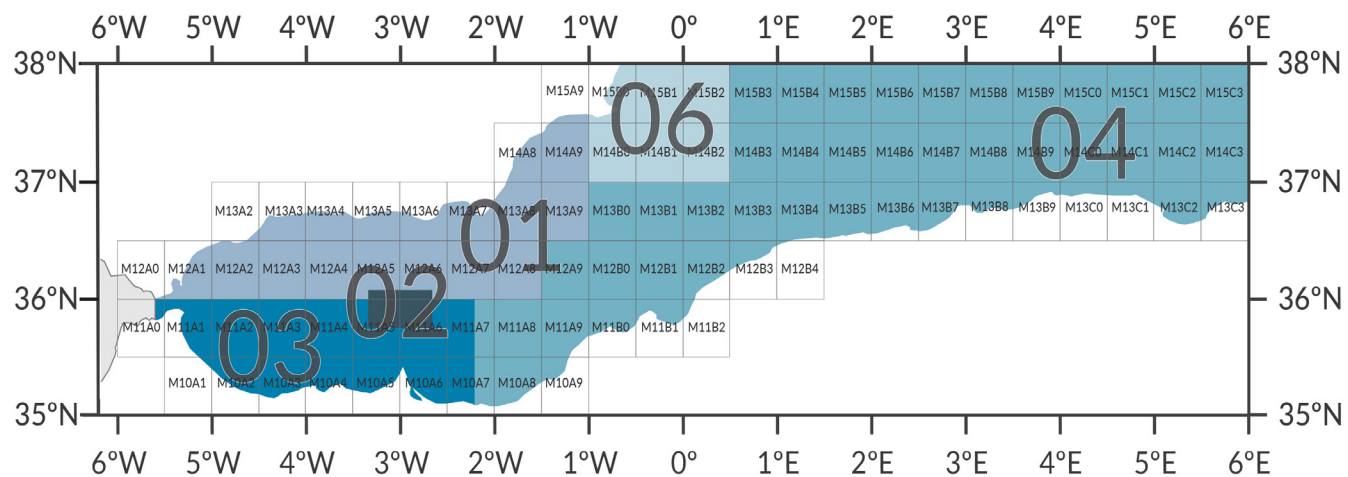

Each rectangle in the statistical grid contains a five-digit code. The first three digits, composed of one letter and two numbers, represent the latitude. These values range from M00 (30°N) to M34 (47°30'N). The last two digits, composed of one letter and one number, represent the longitude. These values range from A0 (6°W) to J5 (42°E).
